### **PIGMENTING:**

TC-866 A/B naturally produces light cream colored parts, but may be easily tinted to any color from light pastels to deep tones using BJB's 6000 Series pigments. The 6000 Series pigments are dispersions which can be used to a maximum of 2% by weight to the total weight of the TC-866 A/B. Dry pigments, such as fluorescent colors, may also be used. Recommended levels of dry pigments are 5 - 10% to the total weight of TC-866 A/B system.

### **STORAGE:**

Store in a cool dry place. Unopened containers will have a shelf life of 6 months from date of shipment when properly stored at room temperatures. Purge opened containers with dry nitrogen before re-sealing.
